SHELTER
YOUR INVESTMENT
The VanBurens know first-hand the challenges involved in raising healthy dairy calves. As third-generation dairymen they began experimenting with hutch designs to provide a healthier, more comfortable environment for calves while improving efficiencies for their business. In 1995, they founded Agri-Plastics to provide local dairy farmers with a better option for housing and caring for the next generation of milkers.

Over the years, Agri-Plastics listened and learned as other producers talked about their own calf housing challenges. And they responded with game-changing innovations that have since become industry standards.

Today, Agri-Plastics hutches are prized the world over for their unique durability, efficiency and ease of use. But at the heart of it all is a family true to its roots, delivering proven calf housing systems for dairy farmers, by dairy farmers.

We understand the value of your calves, and we’re dedicated to helping you shelter your investment.

Reduced calf mortality through focus on 5.

Agri-Plastics seeks to maximize animal welfare by focusing on 5 life-sustaining attributes of good calf housing. By developing our hutches with these attributes in mind, we are helping you improve the way you dairy.
Why grow your business with Agri-Plastics?

ENGINEERED FOR DURABILITY.
Rugged Agri-Plastics products are uniquely manufactured to withstand punishing weather extremes along with everyday wear and tear, calf after calf, year after year. The 10-year warranty on our calf hutches is proof of our commitment to durability.

EASIER ON CALVES, CREW AND YOU.
Because life on a dairy is rough enough, Agri-Plastics calf hutches are designed for maximum simplicity and ease of use at every stage, from assembling to cleaning. See pages 16-17 for our exclusive “Slide 'n' Go” Flex-Pen feature!

“We selected Agri-Plastics for our new expansion at Milk Source. Agri-Plastics was the BEST CHOICE for us because of their well renowned, superior ventilation, durability and features.”
– Ermith Ocampo, Milk Source

1 VENTILATION
Agri-Plastics calf housing products are designed to maximize fresh airflow while minimizing ammonia for improved calf health and comfort.

2 BEDDING
Your calves enjoy a cleaner, healthier environment, thanks to our unique bedding doors which enable quick and easy access for bedding.

3 TEMPERATURE
In all Agri-Plastics calf housing products, the temperature is always comfortable. We have designed our products with the calves in mind. There is plenty of airflow in our hutches and pens, allowing the temperature to be at a consistent rate all the time.

4 FEEDING
Agri-Plastics calf products are engineered to optimize food intake and safety, from colostrum to concentrate.

5 MANAGEMENT
When you're backed by The Calf Housing Specialist, managing your investment is easier and more cost-effective than ever!
Our hutches are built to last, while saving you time and maintaining herd health. Our innovations are based on our own experiences raising calves and decades of experience in calf rearing.

Climate Control
Whether you live in extreme heat or bitter cold, your particular climate will affect which features matter most to you and your calves’ health. That’s why Agri-Plastics offers hutches with right or left offset doors or full openings to accommodate varying climates.

Built for Your Operation
At Agri-Plastics, we understand that calf housing is never “One Size Fits All.” What works for a small dairy most likely will not work for a large operation, so we offer a variety of options and sizes to make sure you can find the best fit for your operation.
Find the right Agri-Plastics product for your operation.

GROUP HUTCH
Ease your calves’ transition from hutches to group housing by using our group hutches. Helps reduce calf stress.

Calf Hutch
The Deluxe SSL Space Saver Calf Hutch works well for shorter periods of time or smaller calves. Facilitates airflow, comfort and cleanliness.

For standard growth periods of 6 to 8 weeks of age, turn to the Deluxe SL Standard Length Calf Hutch. Most popular for weaned calves up to 8 weeks. Choose between side or rear feeding options.

The Deluxe EXL Extra-Large Calf Hutch accommodates longer growth periods of 8 to 12 weeks. The rear of the hutch stays dryer and warmer on cool days, providing better protection from wind, rain and snow.

ALL-NEW FLEX-HUTCH
Sturdy construction accommodates two or three calves; cleanup and maintenance are easy, economical and efficient.

AGP 2018 Product Catalog_printer.indd   8
8/22/18   6:41 PM
Our Rugged Calf Hutches are engineered to not only shelter your livestock, but to dependably serve you, even after years of rough daily use. Choose from three models – the Deluxe SSL, Deluxe SL and Deluxe EXL – each available either on its own or as part of a complete Calf Rancher System. All systems come ready to use with airflow vents, 3-In-One rear door, outside feeding station, two poly buckets and a galvanized wire fence. It’s no wonder our hutches and systems are used by some of the world’s largest farms to shelter, protect and grow their investments.

*Patented and Patents Pending

Deluxe SSL / Calf Rancher Systems*

Deluxe SL / Calf Rancher Systems*

Deluxe EXL / Calf Rancher Systems*

*Fence mount bottle holder not included on all rancher systems
Agri-Plastics Calf Hutches are built tough enough to handle the most demanding operations.

The only rear door that does three things: ventilation, bedding and the option to rear feed. Agri-Plastics 3-In-One Rear Door also has a built-in leaning edge for easy cleaning. This prevents the hutch from falling over when pressure washing. Only one person required for cleaning.
Our most flexible housing ever.

Each Flex-Hutch can house two or three calves depending on your choice of configurations. The Flex-Hutch can be placed directly on the ground or on an optional elevated base to optimize drainage and improve efficiencies during chore time. The sturdy plastic construction is easier and less expensive to maintain than wooden hutches while lasting up to four times as long, saving you time, money and headaches.

- Fits 2 or 3 calves with changeable inner panels
- Cleans and sanitizes easily, so you can put it back in service with zero downtime
- Simplifies daily chores such as bedding, feeding, watering and cleaning
- Provides shelter against all types of weather
- Place directly on ground or choose new optional Flex-Floor for best drainage, easiest maintenance
- Adjustable, hinged Flex-Roof Cover™ opens in one easy movement
- Adjustable rear door allows single-motion ventilation control
- Unit includes 10-quart bucket, bottle holders
- 10-year limited warranty
Agri-Plastics Flex-Hutches can house two or three calves depending on your choice of configurations.

WHAT SETS OUR FLEX-HUTCH APART

These hutches have “flex” in the name for a reason—because their flexibility gives you options to best fit your calf management requirements. We’ll configure the Flex-Hutch to serve two or three calves each, and either way you’ll appreciate the many time- and labor-saving features built into every Flex-Hutch.
Stress can be detrimental to calf health and growth. Our Group Hutches are designed to ease the transition from individual to group housing, and to make it easier for your crew to provide the best care.

Swing-Up Rear Bedding Door makes it easier to add bedding, facilitating cleaner housing and healthier calves.

Ridge Ventilation with a Grill Vent in the front and a Rear Top Rotary Vent you can use to control the airflow.

Molded In One Piece for superior strength that will withstand tough conditions. Our group hutches have no seams, no rivets and no points of weakness.

Integrated Poly Skid will not freeze to the ground the way wood skids do.

Other Great Features include extra hutch height that accommodates longer growth periods, multiple vents for optimal ventilation and a truly opaque design.

At Agri-Plastics, we stand behind our hutches. With a 10-year limited warranty, they are the only serious choice.

* Patented
Agri-Plastics Group Hutches transition weaned calves to group conditions with ease.

WHAT SETS OUR GROUP HUTCHES APART

Our group housing is designed by dairy farmers, for dairy farmers. That means our innovations come directly from the farm to solve the problems you and your crew face every day. From the strong one-piece construction and integrated poly skids to rear rotary vents and a swing-up rear bedding door, our hutches are designed to reduce stress among calves and crew members alike.
Efficiency, Ease and Savings
Cut down labor costs with the Rolling Group Feeding Pen—simply roll the fence back and forth to make cleaning easier and more efficient. With tough aluminum side panels and three mounted troughs, these pens are ideal for calves from 2 to 10 weeks of age. An optional Milk Bar is available to serve multiple calves at one time.

- Pen rolls back and forth for easy cleaning
- Side panels feature a tough aluminum construction
- Recommended for calves 2 to 10 weeks old
- Includes three troughs
- Optional Milk Bar available

OPTIONS:
Transition Pen System
Moving or disassembling group transition pens should be quick and easy. That’s why Agri-Plastics designed our Transition Pen System to pin together simply at the corners. The side panels are made from aluminum to withstand tough conditions, so you don’t have to sacrifice longevity for a product that’s easy to use. Choose from the Standard or XL sizes to fit the needs of your herd.

- Corners quickly pin together for simple disassembly and moving
- Economical, sealed plastic feed trough reduces waste
- Aluminum side panels contribute to a quality design
- Recommended for weaning up to 20 weeks of age
- Water bucket is not included
Agri-Plastics Rolling Group Feeding Pens cut down cleaning time and labor.

Cut down on labor requirements without short-changing your calves with our efficient rolling pens. Cleaning is fast and simple—just roll the fence back and forth to get the job done quickly while causing minimal stress to your calves.

WHAT SETS OUR ROLLING PENS APART

Cut down on labor requirements without short-changing your calves with our efficient rolling pens. Cleaning is fast and simple—just roll the fence back and forth to get the job done quickly while causing minimal stress to your calves.
Starter Pen
The Starter Pen from Agri-Plastics is designed for getting your calves off to a healthy start. These units are just for short term use before moving your calves to your Calf Hutches, larger Indoor Pens, Group Housing or Robotic Feeding set-ups.

Optional Accessories for All Starter Pen Models Include:
- Bottle holder
- Milk bottle
- Teat bucket
- Pail ring
- Starter bowl
- Bucket

Elevated Starter Pen
For optimal drainage, the Elevated Starter Pen is made with a slatted floor that sits above the ground on galvanized metal legs.

Movable Starter Pen
Easily change the position of the Movable Starter Pen using the two swivel wheels with brakes and two rigid wheels that are mounted directly to the slatted floor.

* Patent Pending
Agri-Plastics Starter Pens are designed to get your calves off to a healthy start.

By giving your newest calves housing designed specifically to meet their needs, you can help your calves get off to a great start. Our Starter Pens are made with slatted floors to help improve ventilation and are easy to flip to clean for proper hygiene.

WHAT SETS OUR STARTER PENS APART

By giving your newest calves housing designed specifically to meet their needs, you can help your calves get off to a great start. Our Starter Pens are made with slatted floors to help improve ventilation and are easy to flip to clean for proper hygiene.
Stressless Transitions
Your calves are a valuable investment. Protect them from stress with the exclusive Flex-Pen System from Agri-Plastics. The system is a first in the marketplace that can transform from single to group housing—and back again—simply by detaching the side panels. This innovative, stand-alone solution allows calves to be housed individually, then grouped together when health permits.

We have two choices of Flex-Pen Systems to suit your operation. Choose from the Wire Back option that has an integrated rear bedding door for easy access and viewing of calves, or the Rear Rotary Back that has multiple airflow settings for different barn types and weather.

Additional Flexible Features include:
- Adjustable bucket heights
- Interchangeable front and rear doors
- Meets European housing standards
- Compatible with robotic feeding setups
- Molded from heavy-gauge plastic that is easy to clean and lightweight
- Reinforced steel frame inside the front panel for sturdiness

* Patent Pending
Agri-Plastics Flex-Pen makes transitions easier for calves and operator.

WHAT SETS OUR FLEX-PENS APART

By allowing your calves to be housed individually or in groups without stressful moves, the Flex-Pen System is made to reduce stress on your calves, so they can grow healthy and strong. Protect your investment with Agri-Plastics and its innovative stand-alone housing solution, the Flex-Pen.
You can assemble and dismantle each unit in just minutes thanks to an interlocking tongue-and-groove system for flexible adjustments to your operational setup. Mount the units back-to-back to optimize spacing of calves in cramped livestock buildings.

At Agri-Plastics, our systems are designed to keep your investments healthy with features like separate water and feed buckets that prevent contamination. The easy-to-clean, lightweight design discourages the growth of bacteria and the spread of disease. In addition, heavy-duty Front Feeding Doors are reinforced with a steel frame to withstand punishing conditions.

The system is available in standard and wire back models to protect your interests—the health of your calves.

**Molded Calf Dividers** prevent calves from cross suckling to stop diseases from spreading through your herd.

**Adjustable Front Door** grows as your calf grows for optimal calf comfort and development. Adjusts to three heights.

**Euro-Models** are available which have been designed to European standards.

* Patented and Patents Pending
Agri-Plastics Indoor Calf Pens are the flexible way to shelter your investment.

Every operation is different, so our indoor pens offer various customizable features—from interchangeable front and rear doors on the Flex-Pen to multiple setup options on the Drop-In-Go—so you can customize pens to your operation and your calves’ changing needs. Each of our indoor models is also designed for easy calf viewing, so you can keep a close eye on your investments.
Built for toughness. Built to last.

Our complete line of polyethylene plastic items are as rugged as it gets, resisting damage from weather, corrosive substances and rough daily handling. That includes our Feed Carts and Silage Carts, as well as high-density polymer FootBath and easy-to-use BootBath. Select a Stock Tank to fit your needs, either round or rectangular, each with a float cover included.

Our Poly Brisket Board has pre-drilled holes and won’t crack, chip or splinter. The Poly Silo Clean Chute is clog-resistant and simple to install. Two styles of Poly Feed Bunks include the “J” Bunk to prevent sore noses and tongues and the “U” Bunk in 8-foot sections to use individually or bolted together.

Additional Features include:

- Efficient, effective and easy to install
- Weather-resistant construction
- Designed with farmers in mind
The FLAP DUCT® builds on the best features of the FLIP DUCT® Ventilation System to give producers even more control over ventilation requirements for a customized solution that shelters your biggest investment—your calves.

Agri-Plastics understands that individual setups often need individualized solutions. With FLAP DUCT®, the patented internal membrane can be adjusted up or down to adjust the airflow based on seasonal conditions with the simple flick of a lever. This system is particularly useful during the spring and the fall, when the days are warm and the nights cool. With the membrane in the up position, high speed air showers calves during warm weather. Simply move the lever down to adjust the membrane to the bottom of the tube to deliver slow, non-drafty fresh air during cold weather. Once installed, the membranes can be moved up or down to precisely control airflow based on your herd’s needs in every season.

**WARM WEATHER**
- Variable speed fan set to HIGH
- Internal membrane rests at TOP of duct
- EASY lever control: It’s a breeze to adjust to changing conditions

**COLD WEATHER**
- Variable speed fan set to LOW
- Air flows through SMALL holes
- Gently delivers slow, non-drafty fresh air to calves
Agri-Plastics calf milk trailers all have a Honda 6.5 HP engine. They each have a hot dipped galvanized frame with a torsion rod axle. Each unit comes standard with a hand-held nozzle for dispensing milk. They are easy to drain and keep clean. Built for rugged use.

**SL BOTTLE HOLDER**
AGRI-2003

Choose from a 2, 3 or 4 quart bottle with soft rubber teat. For all housing products.

**FENCE-MOUNT BOTTLE HOLDER**
AGRI-1070 2QT
AGRI-1071 3QT
AGRI-1074 4QT

Hangs on the front of the fence. Fits on all of the fence models.

**SL BOTTLE HOLDER**
AGRI-2002

Fits a 2 or 3 quart bottle. For SSL & SL Calf Hutch.

**WIRE BOTTLE HOLDER**
AGRI-7024

Easy to take on and off for cleaning. For all housing products.

**TEAT BUCKET**
AGRI-4009

For all housing products.

---

**MILK BAR**
AGRI-MB1

One calf 3L / 0.79 US Gallon.

**MILK BAR**
AGRI-MB1EL

One calf 8L / 2 US Gallon.

**MILK BAR**
AGRI-MB2C

Two Calves/ Two compartments 2.5L / 0.66 US Gallon.

**MILK BAR**
AGRI-MB5C

Five Calves/ five compartments 2.5L each / 0.66 US Gallon each.

**MILK BAR**
AGRI-MB6

Six Calves 36L / 9.5 US Gallon.

---

**MILK BAR REPLACEMENT TEATS**
AGRI-MB8T

Replacement Teats for Milk Bar products, sold in a 10 pack. For all Milk Bar products.

**HAY FEEDER**
AGRI-2052 C
AGRI-1052 C EXL

Hangs on the inside of the hutch and includes side access. For SL & EXL Calf Hutches.

**DOUBLE-SIDED HAY FEEDER**
AGRI-7026 C
AGRI-7026 EXL
AGRI-7030 Drop-In-GO Pen

Galvanized Double-sided Hay Feeder. For the Drop-In-Go & Flex-Pen Systems.

**HANGING GRAIN FEEDER**
AGRI-1132

Holds enough calf feed for 3 days, and it mounts onto our wire fence. For all housing products.

**EARLY STARTER BOWL**
AGRI-1067

4" bowl for much faster calf starter intake during the first 2 weeks. For all housing products.

---

**BUCKET RING**
AGRI-6005

For the Starter Pen.

**BUCKET**
AGRI-1049H

For all housing products.

**DOUBLE FENCE MOUNT BUCKET HOLDER**
AGRI-1048D

Fits on all wire fences.

**SINGLE FENCE MOUNT BUCKET HOLDER**
AGRI-1048S

---

**WEATHER COVER**
AGRI-4013

Protects feed from the elements. For all housing products.
Options for the Drop-In-Go Indoor Pens

- **Headlock**
  - AGRI-3020
  - Keeps calves inside their hutches.
  - For all hutches.

- **WALL Bracket Indoor Pen**
  - AGRI-3019
  - Galvanized wall bracket.
  - For the Flex-Pen System.

- **Quick-Release Bottle Holder**
  - AGRI-3021
  - Used when the center panel is removed.
  - For the Flex-Pen System.

- **Bedding Stopper**
  - AGRI-3013
  - Keeps calves inside their hutches.
  - For all Flex-Hutches.

- **Nose Bumper**
  - AGRI-3032
  - Made from 1/4” dia. galvanized steel.
  - Measures 76” L x 100” W.
  - For all hutches.

Options for the Flex-Pen

- **Wall Bracket Flex-Pen**
  - AGRI-3030
  - Galvanized wall bracket.
  - For the Flex-Pen System.

- **Group Housing Bar**
  - AGRI-7015
  - Used when the center panel is removed.
  - For the Flex-Pen System.

- **Front Feeding Door**
  - AGRI-1073
  - For SL & EXL Calf Hutch.

- **Hinge Storm Door**
  - AGRI-2063
  - The Storm Door will stay open against the wire fence.
  - For the SL Calf Hutch.

- **Snap-In Storm Door**
  - AGRI-2062 & AGRI-2062 2
  - Protects calves from the elements.
  - For all SL & EXL Hutches.

Options for the Calf Hutches

- **CalF Fence Panel**
  - AGRI-2000
  - Made from 1/4” dia. galvanized steel.
  - Measures 42” H x 72” D x 48” W.
  - For all hutches.

- **HD Front Panel**
  - AGRI-2070
  - Includes pail rings.
  - For all hutches.

- **6’ Wire Panel**
  - AGRI-2071
  - For use with the HD Front Panel.
  - For all hutches.

- **Calf Jacket**
  - AGRI-5000
  - With quick release buckles.
  - For all Flex-Hutches.

- **Info Stickers**
  - AGRI-7026
  - Comes in rolls of 250 and can be used to ID your calf hutch and calf.
  - For all housing products.

- **Hold Down Hutch Anchor**
  - AGRI-2027
  - Remove pin and drop aircraft cable into place. Cable not included.
  - For all hutches.

- **Fence Attachment Hardware**
  - AGRI-2036
  - For all hutches.

- **Tether Bar Kit**
  - Includes metal bar, neck strap, chain and eye bolts for mounting.
  - For SL, SSL & EXL Calf Hutches.

4-IN-ONE SUPREME FENCE
